EXPERIENCE

Software Engineer

GyanSys

📅 2024   📍 Bengaluru, Karnataka

- Created and maintained scalable, secure, and well-documented RESTful APIs; implemented versioning and ensured backward compatibility.
- Integrated APIs with front-end and backend services, collaborating with developers; optimized performance and resolved issues, decreasing response time by 40%.

Software Engineer Trainee Intern

GyanSys

📅 02/2024   📍 Bengaluru, Karnataka

- Completed intensive training in HTML, CSS, JavaScript, TypeScript, React, Angular, SQL, .NET, and unit testing methodologies
- Developed a Full Stack Blog website using React.js, .NET Web API & SQL database
- Key features: Modal Implementation, Form Handling & Validation, API Integration, Error Handling, Dynamic Data Fetching, State Management, Routing Parameters & Conditional Rendering
- Created a robust Full Stack Blog platform with Angular, .NET Web API, and SQL database
- Key Features: User subscriptions for blog updates, Categorized blog content, Authentication and authorization with JWT tokens, Role-based access control
- Employee Directory Application using .NET MVC framework and SQL db. Utilized C#, HTML, CSS & Js
- Key features: Secure user authentication, Detailed employee profiles, Robust search/filter options, Role-based access controls for data security and privacy

Frontend Developer Intern

Time Chain Labs

📅 06/2023 - 08/2023   📍 Remote

- Increased user engagement by 25% by designing and implementing a user-friendly Neucron swipe widget, enabling seamless and intuitive transactions.

PROJECTS

TuneTrek

HTML, CSS, JavaScript, Bootstrap, React Js

- Developed a music web app, that utilizes the Spotify API to allow users to explore and play music, with features such as search, pagination, playlist creation, error handling, and loading animations
- Implemented a user-friendly interface with a responsive layout, incorporating Bootstrap and CSS for styling, and managed global state using a Context API and React hooks for efficient state management

Real Estate Price Prediction

Python, Pandas, Matplotlib, Sklearn, HTML, CSS, JavaScript, API integration

- Developed a predictive model and improved forecasting accuracy by 20% using Scikit-learn and Linear Regression.
- Implemented a Python Flask server to serve HTTP requests and retrieve predictions from the trained model
- Created a dynamic website using HTML, CSS, and JavaScript, allowing users to input property features such as square footage and number of bedrooms

KEY ACHIEVEMENTS

💎 **HackerRank: 5 star; Leetcode: Solved 300+ problems**

💎 **Postman API week challenge Winner(2023)**

💎 **AIR 85 in NEO 2nd level among more than 10k applicants(2021)**

SKILLS

React JS | Angular | ASP.NET | API | API Integration | Unit Testing | Bootstrap | Css | Docker | Express JS | Next JS | Express.js | AWS | Git | Github | Html | Javascript | TypeScript | C# | C/C++ | JWT Authentication/Authorization | Kubernetes | MongoDB | NLP | MVC Framework | Postman | FAST API | React Hooks | Routing | Redis | Sass | Python | Flask | MatplotLib | Scikit-Learn | Pandas | Jupyter notebook | NodeJS | SQL | NoSQL

EDUCATION

Bachelor of Technology in Computer Science

Institute of Technical Education and Research, SOA University

📅 01/2020 - 01/2024   📍 Bhubaneswar, Odisha

- CGPA: 8.45/10

AISSCE

Kendriya Vidyalaya No.1

📅 04/2019 - 03/2020   📍 Bhubaneswar, Odisha

- AISSCE, Central Board of Secondary Education, Percentage: 86.8
